

17.10.2011

CES has been selected as the Bodyshop Fellowship's preferred Energy Broker.

The Bodyshop Fellowship (BSF) is a country wide bodyshop repairer network. Our aim is to provide their members with the most competitive energy renewal rates whilst assisting them with any billing and metering issues.

CES service is included as one of many BSF's membership benefits and we will not charge a fee.

Our insight in spray booths and its energy consumption can help members in reducing their energy demand and expenditure.
